In 2025, L&M purchased 8-acres in an unreached community with no presence of the gospel!

The majority of children have no access to school due to intense poverty. The birth of Legacy Christian School begins in 2026!

L&M drilled a well 200-feet down bringing clean water and hope to the community!

L&M became a registered in Uganda as a CLG in 2025, strengthening strategic impact, teamwork, accountability, discipleship, and solutions.

We're trusting God in faith to begin developing Legacies & Miracles new 8-acre Dream Center!

According to IMB statistics, the community of Bukonde has not yet been reached with the gospel. In addition, nearly 2,000 children ages 3-12 are out of school! Due to lack of resources, there is drastic poverty with families living in mud, grass hut homes, food scarcity, unemployment, and no medical care!

We met with district officials in Uganda. They have given us the honor of naming the road **Legacy Way**! It is an international road that goes to Kenya that runs in front of the new ministry land!
